## REASONS FOR ALLOWANCE

### *Remark*

- This Office Action is in response to applicant's supplemental appeal brief filed on March 29, 2005, which has been entered into the file.
- Claims 1-22 and 30-31 remain pending in this application.

### *Reasons For Allowance*

1. The following is an examiner's statement of reasons for allowance: of the arguments provided in the appeal brief and prior art references considered none has disclosed a solar control film having one or two metallized layers and a scratch resistant layer wherein the scratch resistant layer contains dispersed carbon black particles. The metallized layers are between the scratch resistant layer and an adhesive layer for adhering the control film to a substrate.

Prior art reference US patent issued to Woodard et al (PN. 6,034,813) teaches a solar control film having metal layer and a scratch resistant hardcoat but it does not teach specifically that the hardcoat comprises dispersed carbon black particles.

Prior art reference US patent issued to Lipp (PN. 3,907,727) teaches to include dispersed carbon black particles in acrylate plastic for providing tinted sunglasses, but it does not teach explicitly that the carbon black particles are dispersed in a scratch resistant layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Audrey Y. Chang whose telephone number is 571-272-2309. The examiner can normally be reached on Monday-Friday (8:00-4:30), alternative Mondays off.
